Simply Shutters

Enhance the natural beauty and character of your property

Decorative shutters are the most cost effective way to provide an instant facelift to your home. In the space of a weekend the appearance of any house, however large or modest, can be transformed in a way that speaks of long days of sunshine and relaxation, continental travel and the grander buildings of the past.

Suddenly your home stands out from those around it, looking more interesting, more inviting, more luxurious and with added charm and style. Town & Country shutters are a high quality, long lasting solution to help you maintain the distinctiveness of your home.

Hand crafted for you and available in six traditional and time honoured styles, any colour you like and guaranteed to be durable and long lived; there are no better decorative shutters available today.

As you might expect, because Town & Country shutters are a premium product they do cost a little more than our popular UPVC ranges.

Colours to complement your home

Town & Country shutters will add charm, appeal and value to your property.

Gloss White and Satin Black are our two standard finishes. We can paint the shutters in any colour you require for a small set-up charge.

A primed finish is available if you wish to paint the shutters yourself.

Warranty

All Town & Country shutters are hand crafted by our own carpenters to your specific size and style requirements. We build Town & Country shutters in exactly the same way as we build shutters from real wood.

The paint finish comes from using a high quality 2-pack acrylic epoxy paint that etches itself on to the base material. You should never need to paint the shutters again, other than if you want to change the decor colour.

The body of the shutter is covered for 10 years and the paint finish for 5 years against manufacturing defects.

True value

You will appreciate the quality of Town & Country shutters when you handle them.

Constructed from a purpose designed blend of special polymers* which warrants the name that we have given it- synthetic wood. Once installed nobody will believe that any Town & Country shutter is not made from wood - even from inches away. Only you will know the secret with the added comfort and reassurance of knowing they will endure, however hostile the weather.

There are crucial differences when compared to timber shutters. Town & Country shutters will last far, far longer and will save you between 33% to 50% or more of the purchase price. They come to you finished and ready to install. Town & Country shutters will pay for themselves time and time again during the lifetime of ownership in maintenance savings of time and money.

What next?

Don't hesitate. Within a few short weeks your home can look more distinctive, more individual and more valuable.

Take a few simple measurements, fill in the dedicated Town & Country order form provided with this leaflet and we shall deliver your Town & Country shutters within four to five weeks.

Should the order form be missing or mislaid, please telephone or e-mail us and we shall happily send you another one. You are also most welcome to order via the telephone where we can answer any remaining questions that you might have or you can order online on our website. www.simplyshutters.co.uk.

Green credentials

Hard though it is to believe when you see and feel them, no wood is used in the manufacture of Town & Country shutters. This means that your purchase does not contribute to the deforestation of slow growing hardwood areas.

Synthetic wood, teamed with our durable 2-pack acrylic epoxy paint finish ensures little or no maintenance and no oil-based paint to buy during the years that you own them.

A bit about Simply Shutters

We are called Simply Shutters because that is what we specialise in. We don't sell all manner of other products although we do carry a few selected UPVC architectural items that we feel will be of interest to you.

As a family run business we try to deliver good old fashioned levels of service. We try to look after you in the way we ourselves want to be looked after by offering sound advice in a cheerful and friendly manner. Customer service is of the highest importance and deeply ingrained within us. Talk to us today and find out for yourself.

Simple to fit

Town & Country decorative shutters are easy to fit. You can DIY or employ a handyman as you prefer.

Simply drill the shutter and the wall, then mount using the stainless steel screws provided.

For a super neat finish we can supply concealed fitting brackets so you have no need to drill the front face of the shutter.
